PROFESSIONAL SUMMARY

Passionate computer science engineering student from SCMS with hands-on experience in AI/ML and growing interest in cybersecurity. I am seeking a role in a culturally sound and forward thinking IT company where I can apply strong communication, leadership, and problem solving skills to real-world challenges while working as a security-conscious, innovation-driven engineer.

EDUCATION

APJKTU, SCMS School of Engineering and Technology, B.Tech in Computer Science and Engineering with Artificial Intelligence | **CGPA: 7.9/10.0** Oct 2022 - Apr 2026

CBSE, Amrita Vidyalayam Kodungallur, Senior Secondary | Computer Science | **Aggregate: 80.3%** Jul 2022

CBSE, Amrita Vidyalayam Kodungallur, Higher Secondary | **Aggregate: 83.2%** Mar 2020

SKILLS

Languages: C++, C, Java, C#, SQL, HTML, CSS, JS, Python, Dart

Technologies: MySQL, XCode, Flutter, Github, Hugging Face, Figma

People Skills: Leadership, Communication, Team management

PROJECTS

Sign Language Translator Sept 2023 – Nov 2023

- Developed a computer vision system in Python to translate single-hand sign gestures into readable text for real-time communication.
- Leveraged machine learning for gesture recognition, optimizing accessibility and inclusion for nonverbal individuals.
- Tools used: Python

Inventory Management System March 2024 – June 2024

- Developed a cross-platform inventory app for college stores using Flutter, C++, and MySQL.
- Real-time stock tracking and simplified item management were implemented to improve usability, performance, and convenience for students.
- Tools used: Flutter, C++, MySQL

Adaptive NPC Gaming Template June 2025 – Sept 2025

- Built an interactive gaming template that applies reinforcement learning to analyze player behavior and improve NPC decision-making.
- Designed NPCs that learn user play-patterns within 4–5 sessions, adapting strategies such as combat assistance, stealth balancing, and tactical movement based on player strengths.
- Tools used: Python, TensorFlow, Unreal Engine

CERTIFICATION AND INTERNSHIPS

Machine Learning Intern, Edunet, AICTE April 2025 – June 2025

- Completed a Machine Learning internship under the Microsoft–AICTE Edunet Foundation, working on guided projects involving data preprocessing, model training, and evaluation with hands-on ethical AI practices.

Risk and Compliance (GRC) Intern, Adaptive Cyber Labs Dec 2025 – Present

- Developing an AI-driven compliance automation platform leveraged by NLP to generate audience-tailored reports (executive, technical, legal) from technical audit data, currently achieving 70% accuracy on survey-based assessments while enabling real-time multi-framework validation across DPDP, IRDAI etc.
